

October is... Learning Disability Awareness Month!

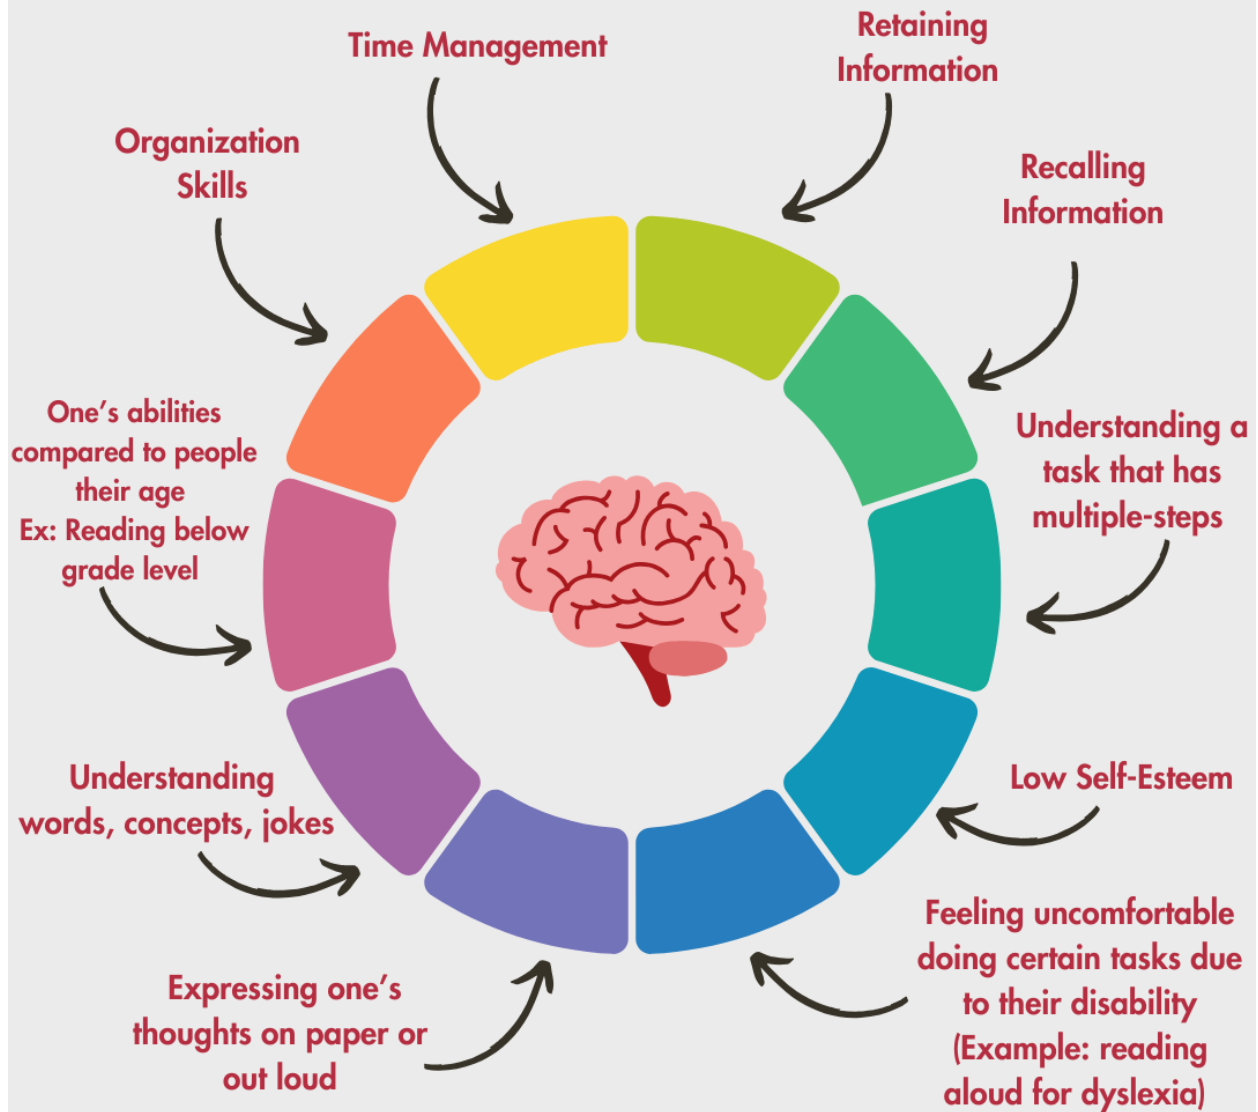

Many people think learning disabilities **ONLY** impact the way an individual...

While this is true, learning disabilities impact more
(swipe to find out)

Learning disabilities impact...

DO and **DON'Ts** of knowing someone with a learning disability...

- Be patient with the individual
 - Repeat information when needed
 - Ask if the individual need any help or clarification
 - Check in once in a while to see how the individual is doing!
 - Be conscientious that some tasks may be more challenging than others. Just because something is simple for you does not mean it is simple for the person with a learning disability.
 - **BE KIND <3**
- Do not judge the individual as being "less smart" or "less capable." Learning disabilities do not effect IQ
 - Do not force the individual to do something they are uncomfortable doing
 - Do not make jokes about the individual's disability
 - Do not say phrases like "Try harder," or "It is so easy, why don't you get this!"
 - Do not make the individual feel ashamed for learning differently
 - Do not say that the individual is **FAKING** the disability. Just because you can not see it, does not mean it does not exist!
